

## POSITION AVAILABLE - SENIOR AVIATION CONSULTANT

Aviation Projects delivers innovative solutions to complex aviation problems. We are a leading, multiple award-winning consultancy for airport owners, operators, regulators, governments and service providers in Australia and the Asia Pacific region. We specialise in the safe, secure, efficient and sustainable design and management of airports, airport operations and airspace by delivering innovative design solutions for complex problems. We look at aviation from the ground up. We don't just deliver answers; we solve problems. We focus on safety and compliance and think outside the box, creating value for our clients.

To grow our team, we are looking for an enthusiastic, self-motivated, driven professional with highly developed interpersonal, written and verbal communication skills.

The successful candidate will be part of our high-performance team delivering exceptional outcomes for our customers, whilst nurturing and driving business growth opportunities across the Asia Pacific region and beyond.

Your function and responsibilities:

- Develop excellent client and stakeholder relations and represent Aviation Projects through networking and industry forums;
- Provide independent advice, identify and analyse problems, recommend solutions and assist with their subsequent implementation;
- Writing, editing and proofing strategic and technical reports and other documentation;
- Working with a collaborative approach, conducting analyses and assessments, achieving project deliverables and objectives within required timeframes;
- Plan and organise your own tasks, operating independently and in a professional manner; and
- Generate growth in our business by undertaking marketing activities and development initiatives and delivering consistent and excellent outcomes for our clients.

Attributes/ Requirements:

- Team player, able to promote a positive workplace culture, someone who enjoys working with others and growing a professional network;
- Demonstrated excellence in oral and written communication including proofing and editing skills;
- Honest, ethical, loyal, continuous learner, creative problem solver, innovative;
- A citizen or permanent resident of Australia or a New Zealand citizen; and
- Willing to travel and work outside normal office hours.

Qualifications, Skills and Abilities:

- Experience in a senior role as a consultant or working for an airport, ideally with an understanding of business development and project management and preferably in an airport, aviation operations or airport consulting environment;
- Tertiary educated or equivalent practical experience in an aviation related field;
- Demonstrated understanding of:
  - Airport master planning, upgrade studies or other strategic planning documents and business cases and a working knowledge of Australian and international standards;
  - Infrastructure development and/or land use planning;
  - Airport/airfield operations, compliance and safety management; and
  - Route development, airline and airport economics.

We are offering a package that matches your role and experience.
